CAREER OBJECTIVE

- **About me:** I am a relentless learner, and enjoy reading about, studying, and attending workshops that teach me new skills and best practices.

- **Goal:** During time at company, I would like to work in a professional environment so that I can apply the knowledge I have learned in college to practice. My goal in the next five years is to become a manager.

EDUCATION

9/2015 + UNIVERSITY: UNIVERSITY OF INFORMATION TECHNOLOGY

↓
3/2020 | Major: Software Engineering
Graduation year: 2020

WORK EXPERIENCE

10/2020 + WORK AT GOALIST COMPANY: JOB CONNECTER

↓
Now

My roles: Developer Java

Programming language: Springboot, Angular 11

Project overview: Building a system to connect companies with job seekers

My achievements: Build the system with security, login with google, facebook, working with firebase cloud, multi-thread, create RestAPI,... Understanding business logic. Communicate, discuss and get tasks with the Japanese team.

04/2020 + MONITORING SYSTEMS(FREELANCER) - STUDY JAPANESE(6 MONTHS)

↓
10/2020

My roles: BA, PM, Dev Java and Angular 10

Project overview: Build a system to read and manage data of physical machines from data read up from sensor.

My achievements: Analyze customer requirements, create SRS documents, design DB. Connect between hardware and software, read data from physical machine using OPC UA and FTP protocol. Then build a data management website.

+ Study Japanese at Đông Du School(N5 + N4).

07/2019 + CITYNOW COMPANY: RESOURCE-CHAIN NETWORK

↓
03/2020

My roles: Blockchain hyperledger Fabric Developer, Java

Programming language: Blockchain hyperledger fabric 1.4

My achievements: Create new hyperledger fabric network include 3 organizations, 2 channels to manage tasks and users. Deploy network on multi host. Add new channel, org into exist network use shell script. Understand about network hyperledger and able to build a network.

02/2019 + CITYNOW COMPANY: BANKING SYSTEM

SKILLS

Ruby(Ruby on Rails)

Java

HTML, CSS, JAVASCRIPT

Angular

Python

Blockchain, Hyperledger Fabric

Database: MySQL, MongoDB, Neo4J

English Skills

Japanese

Docker, Github, Gitlab, Backlog, Jira, Telegram, AWS

LANGUAGESE

English: Toeic 550

Japanese: N4

HOBBIES

- Read book
- Play outdoor sports
- Play chess
- Participate in social activities

↓ 07/2019	<p>My roles: Ruby on Rails Developer</p> <p>Programming language: Ruby on Rails, HTML, CSS, Bootstrap 3, 4</p> <p>My achievements: Learn more how to manage source code on github (merge code, resolve reject,...), working with Docker, API, real database. Working directly with Japanese customers. Understand how the banking system operates</p>
09/2018 ↓ 01/2019	<p>+ CITYNOW COMPANY: CROWDFUNDING PROJECT + ICOP PROJECT</p> <p>My roles: Java Developer</p> <p>Programming language: Spingboot, SpringSecurity, MongoDB, ReactJS</p> <p>My achievements: Practice security configuration use JWT, database connection using JPA, manage API use swagger, deploy project on AWS for customer. Using AWS to send mail, save photos, deploy projects. Help font-end team code ReactJS. Team working and communicate with Japanese customer. Use Telegram, Wantedly to communicate, Backlog to manage task and Gitlab to manage the project.</p>
08/2018 ↓ 09/2018	<p>+ INTERNSHIP AT CITYNOW COMPANY: BLOCKCHAIN TECHNOLOGY</p> <p>My roles: Team leader, Research and Developer</p> <p>Programming language: NodeJS, Solidity, HTML, CSS</p> <p>My achievements: Learn new technology and related concepts like: Block, Gas, Proof of Work, P2P Network... Build new smartcontract application on ETH platform. Learn more how to test smartcontract use Metamask, Etherscan. Raising the skills about Data Analyst and skills read English paper.</p>
10/2017 ↓ 12/2017	<p>+ PROJECT'S NAME(FREELANCER): TANK-MONITOR SYSTEM</p> <p>My roles: Team leader, Analysis of customer requirements, Data Analyst and Design, Design UI and Developer.</p> <p>Programming language: PHP, JavaScript, HTML and CSS.</p> <p>My achievements: Practice team working skills, get acquainted with the actual project, learn more framework Phalcon PHP, raising the skills fix bug, clear code and skills read English book.</p>

SOFT SKILLS

- **Communication**
- **Teamwork**
- **Problem-solving**
- **Leadership**
- **Passion**

EXTRA ACTIVITIES

10/2018 ↓ 10/2018	<p>+ HACKATHON: DAPP CHARITY PROJECT</p> <p>My roles: Developer blockchain</p>
01/2018 ↓ 02/2018	<p>+ JOINED "ENROLLMENT ADVISOR 2018"</p> <p>My roles: Volunteer</p>
03/2017 ↓ 04/2017	<p>+ JOINED "HANDS UP 2017"</p> <p>My roles: Volunteer</p>
