

TRẦN THIÊN HÒA

Software engineering

B133, Tang Nhon Phu B Ward, District
9, Ho Chi Minh City
hoatt1097@gmail.com
0357790513

EDUCATION

9/2015 + UNIVERSITY: UNIVERSITY OF INFORMATION TECHNOLOGY
↓
NOW | Major: Software Engineering
Graduation year: 2019

WORK EXPERIENCE

07/2019 + RESOURCE-CHAIN NETWORK
↓
Now | My roles: Hyperledger Fabric Developer
Programming language: Hyperledger fabric 1.4
My achievements: Create new hyperledger fabric network include 3 organizations, 2 channels to manage tasks and users. Deploy network on multi host. Add new channel, org into exist network use shell script. Understand about network hyperledger and able to build a network.

02/2019 + BANKING SYSTEM
↓
07/2019 | My roles: Ruby on Rails Developer
Programming language: Ruby on Rails, HTML, CSS, Bootstrap 3, 4
My achievements: Learn more how to manage source code on github (merge code, resolve reject,...), working with Docker, API, real database. Working directly with Japanese customers. Understand how the banking system operates

09/2018 + WORKING AT CITYNOW COMPANY: ICOP PROJECT
↓
01/2019 | My roles: Java Developer
Programming language: Spingboot, SpringSecurity, Neo4j
My achievements: Maintain and refactor code, security configuration for application, database connection using JPA, understanding MVC architecture in Springboot. Using AWS to send mail, save photos, deploy projects. Team working and communicate with Japanese customer. Use Telegram, Wantedly to communicate, Backlog to manage task and Gitlab to manage the project.

10/2018 + WORKING AT CITYNOW COMPANY: CROWDFUNDING PROJECT
↓
01/2019 | My roles: Java + ReactJS Developer
Programming language: Spingboot, SpringSecurity, MongoDB, ReactJS
My achievements: Practice security configuration use JWT, database connection using JPA, manage API use swagger, deploy project on AWS for customer. Using AWS to send mail, save photos, deploy projects. Help font-end team code ReactJS. Team working and communicate with Japanese customer. Use Telegram, Wantedly to communicate, Backlog to manage task and Gitlab to manage the project.

SKILLS

Self-motivated and able to work in a small team

Java

Ruby(Ruby on Rails)

HTML, CSS, JAVASCRIPT

Python

Blockchain, Hyperledger Fabric

English Skills

Docker, Github, Gitlab, Backlog, Jira, Telegram, AWS

HOBBIES

- Read book
- Play outdoor sports
- Play chess
- Participate in social activities

08/2018 + INTERNSHIP AT CITYNOW COMPANY: BLOCKCHAIN TECHNOLOGY

↓
09/2018 | [My roles: Team leader, Research and Developer](#)
Programming language: NodeJS, Solidity, HTML, CSS
My achievements: Learn new technology and related concepts like: Block, Gas, Proof of Work, P2P Network... Build new smartcontract application on ETH platform. Learn more how to test smartcontract use Metamask, Etherscan. Raising the skills about Data Analyst and skills read English paper.

10/2017 + PROJECT'S NAME: TANK-MONITOR SYSTEM

↓
12/2017 | [My roles: Team leader, Analysis of customer requirements, Data Analyst and Design, Design UI and Developer.](#)
Programming language: PHP, JavaScript, HTML and CSS.
My achievements: Practice team working skills, get acquainted with the actual project, learn more framework Phalcon PHP, raising the skills fix bug, clear code and skills read English book.

EXTRA ACTIVITIES

10/2018 + HACKATHON: DAPP CHARITY PROJECT

↓
10/2018 | [My roles: Developer blockchain](#)

01/2018 + JOINED "ENROLLMENT ADVISOR 2018"

↓
02/2018 | [My roles: Volunteer](#)

03/2017 + JOINED "HANDS UP 2017"

↓
04/2017 | [My roles: Volunteer](#)

CAREER OBJECTIVE

Position: Back-end development

Goal: During time at company, I would like to work in a professional environment so that I can apply the knowledge I have learned in college to practice. My goal in the next two years is to become Junior and full stack developer. I hope to have the opportunity to improve my IT experience and be able to go to Japan in the near future.
